

REMARKS

Reconsideration of the present application, as amended, is respectfully requested.

In the Office Action, the Examiner indicated that the title of the invention was not sufficiently descriptive, and required a new title. In response, the title has been amended to be clearly indicative of the invention to which the claims are directed. Accordingly, withdrawal of the objection to the title is respectfully requested.

In the Office Action, the Examiner objected to the Abstract for being the same as US Patent No. 6,363,340. In response, the current Abstract has been deleted and substituted with the enclosed New Abstract which is different from Abstract of US Patent No. 6,363,340. Accordingly, withdrawal of the objection to the Abstract is respectfully requested.

In the Office Action, the Examiner rejected claims 14-19 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over U.S. Patent No. 6,363,340. In response, a terminal disclaimer is being submitted herewith to overcome this rejection along with assignments that assign both the current application and U.S. Patent No. 6,363,340 to Koninklijke Philips Electronics N.V.

In view of the above, it is respectfully submitted that the present application is in condition for allowance, and a Notice of Allowance is earnestly solicited.

If any informalities remain, the Examiner is requested to telephone the undersigned in order to expedite allowance.

Please charge any fee deficiencies and credit any overpayments
to Deposit Account No. 14-1270.

Respectfully submitted,
